HEALTHY EATING POLICY

Rationale:

Healthy nutritional habits are essential to the growth and development of children.

Aims:

- To develop within students an informed appreciation of healthy eating habits.
- To ensure that any foods provided by the school are consistent with a healthy eating philosophy.

Implementation:

- The development of an appreciation of healthy foods and healthy eating habits form part of our overall Health Promoting School strategy.
- Lessons relating to healthy foods and healthy eating will form part of each child's annual Health & Physical Education curriculum studies.
- St Joseph's School will involve itself in local strategies designed to raise an awareness of, or to promote healthy foods eg: fruit growing or dairy industry promotions.
- Healthy foods and drinks will be available to all students at activities such as sporting events.
- The principal will ensure that a supply of drinkable water is available at the school at all times.
- At least once per year the whole school will focus upon a theme of healthy foods.
- Staff members will be encouraged to model healthy eating habits whilst at school.
- Our school will provide information to parents and students to regularly inform them of the need to maintain a healthy lifestyle through good nutrition and regular exercise.
- Parents will be encouraged to pack a healthy lunch and snacks for their children each day.
- Students will have access to their own water bottles during class lessons, and have permission to eat healthy foods such as dried fruits during class time unless it is deemed by the classroom teacher to be inappropriate to do so.
- Bags of chips, lollies, fizzy drinks and other unhealthy snacks may not be eaten at school. If brought to school they will be sent home with children at the end of the day.
- Fast foods such as McDonald’s and KFC may not be eaten at school.
- Our school provides a healthy breakfast for all students who wish to come along daily from 8.00am.
- Fund raising activities will not focus on the promotion of unhealthy foods that do not complement our healthy foods philosophy eg: chocolate bars or lamingtons.
- Staff are to inform the principal of students who appear to be provided with inadequate lunches.

Evaluation:

- This policy will be reviewed as part of the school's three-year review cycle.
